ELITEZ GROUP UNDER THE LEADERSHIP OF DERRICK TEO

HISTORY

The founders were strangers who got acquainted over a coffee session discussing what meaningful opportunities they can create for homemakers and semi-retirees. An idea struck, to hire them to work in a familiar environment, the supermarket.

They start off with seeking MNCs clients, knocking on all doors, and facing rejection till one saw their sincerity and give them a chance.

It is my honour to have the chance to work under Derrick's leadership during my short term at Elitez. As a young leader at his age, it is very impressive to witness how he have guided the business and the employees to thrive during COVID period.

Despite his busy schedule as a CEO, he never fails to keep track of the goals and progress of each individual managers and their team. He also takes times to meet up with them individually to understand their struggles (if any) and offers to share his experience and knowledge with them to help them in guiding the newer colleagues. As a strong believer of lifelong learning, he also ensures that his employees are constantly looking to upgrade and improve their skillsets from year to year.

Derrick is one that believes in giving full ownership and autonomy to his leaders for them to grow in their respective areas. He encourages them to think creatively, innovate and share their ideas with him. He is also one that supports entrepreneurship and encourages his team to go to him whenever they need advice.

Derrick is not only down to earth, but he is also a very sincere and genuine leader. He is very knowledgeable and is not afraid to share what he knows. He has gained the respect of many leaders and team members in the company and serves as an inspiration to all.

I have known Derrick for quite a number of years. When he approached me to join him in late 2020, I was hesitant. After all I was an entrepreneur myself and I am not sure if I can report to someone so much younger than me. The friendship with him assured me of his character, leadership and integrity, coupled with the vision he shared for his company moving forward. I was convinced that working with him will be fun and fulfilling. Joined in Jan 2021 and like what people use to say, the rest is history. I am still enjoying my working relationship with Derrick after 1.5 years and I am confident that he will lead the company to great heights.
